

GroPAL Balance O

with

Guaranteed Analysis:

0 - 0 - 0.7

Soluble Potash (K ₂ O)	0.7%
Magnesium (Mg)	1.9%
Sulfur (S)	0.7%
Chloride (Cl)	5.8%
Sodium (Na)	0.6%

Derived From: Potassium Sulfate, Potassium Chloride, Magnesium Chloride and Sodium Chloride.

DIRECTIONS: Broadcast in a 20 to 40+ gal./acre tank mix.

If applied before a rain or watered in, or if tilled in or applied in-the-row, on-the-seed, you may use as little as a 3 GPA tank mix.

Apply 32 to 64 oz. per acre 1 to 4 times a year. This product needs to be carried into the soil with water, and needs 1.1" of soil moisture to activate it. May be applied at the rate of 5 gallons per 250,000 gallons to lagoon water, and 12 oz. per cubic yard to manure.

Please loosen lid while product is in storage to allow venting

If GroPal Balance O is applied with fish, kelp or humic acids, add GPB-O to the tank first, add water, then add the other item. Not compatible with most other items. Always jar test before mixing other products with GPB-O. Best applied with non-chlorinated water.

Store product in temperatures under 120°, preferably under 100°, and out of direct sunlight.

AG-USA makes no warranties of any kind, express or implied with respect to GroPal Balance O. When applied as directed: This product meets the guidelines for metals adopted by the Association of American Plant Food Control Officials. Information regarding the contents and levels of metals in this product is available on the internet at <http://www.aapfco.org/metals.htm>
